

Progress Note Logging Application Routes Map
Badass Team Name (AKA Purple Hippos)

Planned Routes Map for MVP:

Method	Path	Handler	Page	Middleware
any	/	home	home.html	
GET	/login	getLogin	login.html	
POST	/login	postLogin	notes.html (/login)	
GET	/note/view/{id}	getNoteView	note.html	
GET	/note/create	getNoteCreate	note-create.html	
POST	/note/create	postNoteCreate	note-create.html (/note/create)	
GET	/notes/view	getNotesView	notes.html	
any	/logout	logout		
GET	/admin/note/view/{id}	getAdminNoteView		
GET	/admin/notes/view	getAdminNotesView		

Implemented Routes Map for S2:

Method	Path	Handler	Page	Middleware
any	/	mainHandler	home.html	
any	/note/{id}	noteHandler	note.html	providerVerify
any	/notes	notesHandler	notes.html	providerVerify
GET	/add-note	addNoteGet	add-note.html	providerVerify
POST	/add-note	addNotePost	redirect(/note/{id})	providerVerify
any	/logout	logout	redirect(/)	providerVerify
GET	/login	getLogin	redirect(/login)	providerVerify
POST	/login	postLogin	redirect(/notes)	providerVerify
